

Mending the Soul is a support group that helps the abused person recognize how abuse has affected their relationships with others, as well as themselves, and God. Many who have experienced physical, verbal, sexual and/or emotional abuse, neglect, spiritual/religious abuse have found comfort and gained tools to help them in their recovery journey.

Mending the Soul provides a safe and confidential environment to heal from woundedness by contrasting God's truth with the abuse that has disfigured our hearts, bodies, and minds.
